

Jacek Gwizdka – The University of Texas at Austin

Dr. Jacek Gwizdka is an Associate Professor in the Texas iSchool.

He has a PhD and MASc degrees in Industrial Engineering from University of Toronto and a MSEE in Control Engineering from Łódź University of Technology.

Dr. Gwizdka conducts research in human-computer interaction with interests in cognitive psychology, interactive information retrieval, search interfaces and personal information management. He is particularly interested in implicit assessment of cognitive load using psycho-physiological methods.

His recent projects include application of cognitive neuroscience tools to the study of cognitive function engaged in human-information interaction as well as using computer interaction and eye-tracking data to infer cognitive impairment in older adults.

Dr. Gwizdka participated in all but one past PIM workshops.
